

Industrial Illuminated Magnifiers

Stop Replacing, Start Saving

How often are you purchasing replacement magnifiers in a 5 year period? We understand a cheap price is attractive, but don't be lulled into a false economy. A Vision Luxo illuminated bench magnifier, **starting at \$222**, will save you money and time in the long term. Durably constructed in Norway by a trusted brand known for quality, we guarantee quality and satisfaction. Every model is backed with a 5 year warranty. Should something go wrong we will send you a brand new model.

Choice of Magnification

Customize your bench magnifier to your application by choosing from a variety of different magnifications. Primary lens magnifications range from 3 diopter (1.88x) to 5 diopter (2.25x). Secondary lenses are available for all models in 4 (2x), 6 (2.5x), or 10 (3.5x) diopter.

Flexibile Working Positions

Our magnifiers are designed to maximize horizontal and vertical movement. They provide significant horizontal reach and will always stay in the right position without drifting. The arms are balanced by spring systems which ensure smooth and easy positioning.

ESD, UV & LED Variants Available

All models include LED illumination for a detailed view of the subject. ESD variants are available in select models to make working with electronics possible and safe. Option of UV lights available in select models for inspection of conformal coatings on PCBs.
