

CERTIFICATE OF ACCREDITATION

The ANSI National Accreditation Board

Hereby attests that

Gage-Lab Products, Inc.
6577 S. Cottonwood St.
Murray, UT 84107

Fulfills the requirements of

ISO/IEC 17025:2017

In the field of

CALIBRATION

This certificate is valid only when accompanied by a current scope of accreditation document.
The current scope of accreditation can be verified at www.anab.org.

A handwritten signature in black ink, appearing to read 'R. Douglas Leonard Jr.', is positioned above a horizontal line.

R. Douglas Leonard Jr., VP, PILR SBU

Expiry Date: 27 November 2023
Certificate Number: AC-2823

This laboratory is accredited in accordance with the recognized International Standard ISO/IEC 17025:2017.
This accreditation demonstrates technical competence for a defined scope and the operation of a laboratory
quality management system (refer to joint ISO-ILAC-IAF Communiqué dated April 2017).

SCOPE OF ACCREDITATION TO ISO/IEC 17025:2017

Gage-Lab Products, Inc.
6577 S. Cottonwood St.
Murray, UT 84107
Tim Zimmerman 801-716-2972

CALIBRATION

Valid to: **November 27, 2023**

Certificate Number: **AC-2823**

Length – Dimensional Metrology

Parameter/Equipment	Range	Expanded Uncertainty of Measurement (+/-)	Reference Standard, Method, and/or Equipment
Video Measuring Systems X & Y Linearity ¹	600 mm x 600 mm	1.8 µm	Comparison to Glass Scale
Z Linearity ¹	150 mm	1.7 µm	Comparison to Step Gage

Calibration and Measurement Capability (CMC) is expressed in terms of the measurement parameter, measurement range, expanded uncertainty of measurement and reference standard, method, and/or equipment. The expanded uncertainty of measurement is expressed as the standard uncertainty of the measurement multiplied by a coverage factor of 2 ($k=2$), corresponding to a confidence level of approximately 95%.

Notes:

1. On-site calibration service is available for this parameter, since on-site conditions are typically more variable than those in the laboratory, larger measurement uncertainties are expected on-site than what is reported on the accredited scope.
2. This scope is formatted as part of a single document including Certificate of Accreditation No. AC-2823.

R. Douglas Leonard Jr., VP, PILR SBU
