

September's Special Offer

MarCator 1086 R-HR / 1087 R-HR | Digital Indicators

Mahr's 1086 R-HR and 1087 R-HR digital indicators employ all the proven features of the MarCator line - a clear digital display, robust construction and data collection capabilities. The HR version offers higher resolutions and accuracy to meet your demands when tolerances are getting tighter. These digital indicators offer capabilities for all applications both static and dynamic in some of the most demanding point of manufacture measurements. Various interfaces for data transfer and a high protection rating up to IP 54 leave no demands unfulfilled.

Features:

- All the proven feature of the 1086 R and 1087 R Indicators
- High contrast LCD display, thus very clear and safe to read
- With Higher Resolutions to 0.1 µm / 10 µin
- Extra high accuracy for comparative or long range applications
- Lifter protection cap on the measuring spindle
- Mounting shank and measuring spindle are both made of hardened stainless steel
